- <https://www.linkedin.com/in/amina-ghulam-mustafa-18a979332/>

SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), React, Figma (UI/UX).
- Backend & DB: Python, PHP, Node.js, Express, Firebase, MongoDB, SQL.
- AI & Tools: Agentic Document Extraction, RAG, Image preprocessing, YOLOv8, OCR, Google Cloud (GCP), Git/GitHub.
- Methodologies & Concepts: Project Management, Code Refactoring, Black Box Testing, UML Modeling, Agile/Scrum.

PROFILE

Full-Stack AI Developer specializing in building scalable web and mobile applications. I integrate responsive frontends with robust backends and Agentic AI. I focus on building scalable APIs and cloud-integrated databases. Developed a Smart Health Record System to automate medical data entry. Ranked in the **92.2** percentile nationally in the NSCT evaluation. Focused on writing clean, efficient code and robust system architectures.

KEY PROJECTS

Academic Projects

Smart Health Record System | Backend and AI Developer 2025- 2026

- Developed a mobile app utilizing Agentic Document Extraction to intelligently digitize complex handwritten medical records.
- Developed a custom RAG-based health assistant using Python/Flask and Gemini AI to generate personalized plans.
- Integrated Google Maps API to locate nearby pharmacies.

Junior Full-Stack Developer 2022-2024

- Developed a Blood Donation Management System using PHP, MySQL, and Apache with responsive user interface.
- Built a Coffee Ordering Web App using React and backend integration with Node.js and MongoDB.
- Created a Hospital Management System in Java based on Object-Oriented Programming (OOP) principles.

QA & Tester 2025

- Conducted detailed black box testing on the Daraz e-commerce platform.
- Designed test cases using equivalence partitioning, boundary value analysis, and agile testing techniques.
- Identified and documented bugs.

UI/UX 2023

- Designed complete UI/UX mockups using Figma for a Recipe App and a language learning platform (SpeakWise).
- Created detailed UML diagrams (use case, activity, class, sequence) to model system behavior and architecture.

EDUCATION

BS Software Engineering | GPA: 3.2 2022 - 2026
GIFT University Gujranwala

Intermediate (ICS - PHYSICS) | Grade: A 2020 - 2022
Punjab Group of Colleges, Kamoke
